

James CURRAN a rejoint la Rollins School of Public Health (RSPH) en tant que doyen et professeur d'épidémiologie en 1995, suivies de 25 années de leadership aux Centers for Disease Control and Prevention (CDC). Il est codirecteur du Centre Emory pour la recherche sur le sida et membre du corps professoral de l'Emory School of Medicine et de la Nell Hodgson Woodruff School of Nursing.

En 1981, James Curran a été engagé pour diriger un groupe de travail des CDC chargé de déterminer ce qui était derrière les premiers cas de ce que nous appelons maintenant le sida. Pionnier de la prévention du VIH / SIDA, il a dirigé les efforts de la nation dans la lutte contre le VIH / sida pendant 15 ans avant de rejoindre Emory. Au CDC, il a atteint le grade de chirurgien général adjoint.

Après avoir obtenu son diplôme de l'Université de Notre-Dame, James Curran a obtenu son doctorat en médecine de l'Université du Michigan et une maîtrise en santé publique de l'Université de Harvard. Il est membre de l'American Epidemiologic Society, de l'American College of Preventive Medicine et de l'Infectious Diseases Society of America. Auteur ou co-auteur de plus de 290 publications savantes, il a été élu à l'Institut de médecine de la National Academy of Sciences en 1993. Il a reçu la Médaille d'excellence du Surgeon General en 1996 et le John Snow Award de l'American Public Health Association en 2003.

En 2015, il a été élu à l'Académie américaine des arts et des sciences et est immédiatement président sortant du conseil sur la santé de la population et la pratique de la santé publique de l'Institute of Medicine et siège au conseil d'administration de l'Association of Schools and Programs of Public Health. En 2009, le poste de doyen de la Rollins School of Public Health a été nommé James W. Curran Dean of Public Health en son honneur.

***James CURRAN** joined the Rollins School of Public Health (RSPH) as dean and professor of epidemiology in 1995, following 25 years of leadership at the Centers for Disease Control and Prevention (CDC). He is co-director of the Emory Center for AIDS Research, and holds faculty appointments in the Emory School of Medicine and the Nell Hodgson Woodruff School of Nursing.*

In 1981, James Curran was tapped to lead a CDC task force charged with determining what was behind the first cases of what we now know as AIDS. A pioneer in HIV/AIDS prevention, he led the nation's efforts in the battle against HIV/AIDS for 15 years before joining Emory. While at the CDC, he attained the rank of assistant surgeon general.

After graduating from the University of Notre Dame, James Curran received his MD from the University of Michigan and a master of public health from Harvard University. He is a fellow of the American Epidemiologic Society, the American College of Preventive Medicine, and the Infectious Diseases Society of America. Author or co-author of more than 290 scholarly publications, he was elected to the Institute of Medicine of the National Academy of Sciences in 1993. He was given the Surgeon General's Medal of Excellence in 1996 and received the John Snow Award from the American Public Health Association in 2003. In 2015, he was elected to the American Academy of Arts and Sciences and is immediate past chair of the board on Population Health and Public Health Practice of the Institute of Medicine and serves on the Board of Directors of the Association of Schools and Programs of Public Health. In 2009, the Rollins school of Public Health Dean's position was named the James W. Curran Dean of Public Health in his honor.
